## KOROSEAL LILY POOL

EASILY SET UP

PORTABLE

EASILY TAKEN DOWN

- SET IT UP -- on your lawn  
-- at the bottom of your rock garden  
-- on your terrace  
-- on rooftop or penthouse garden  
-- indoors for storing goldfish in the winter

This portable pool may be set up anywhere on a level surface!

When used as a lily pool, a sunny place should be selected if you want your lilies to flower. It presents a very attractive appearance when partially sunk in the ground.

To set it up, inflate the rim with a few puffs of air and then fill it with water which will form the shape. Full instructions for installation come with the pool.

The Koroseal Pool is made by the Goodrich Company. It has been thoroughly tested and found to be durable and flexible; and it is resistant to abrasion, grease, chemicals and sunlight. When filled, it is approximately 9 inches deep, 55 inches in diameter and holds 75 gallons. The pool is translucent green in color and the seams, being electronically welded, are permanently water tight.

The 55 inch pool is Priced at

**\$9.95**

(by parcel post, add 50c)

We can also furnish a larger  
KOROSEAL\* Lily Pool, 70 inches  
in diameter for

**\$14.95**

(by parcel post, add 70c)
